

Kelso Garden Club website articles

1. Kelso Garden Club has enhanced their Blue and Gold Star Markers and planting area at Tam O'Shanter Park in Kelso, WA with 2 large pots filled with Red, White and Blue flowers and a wreath to commemorate the celebration of 250 years as a nation. The plants were red geraniums, white alyssum and blue/purple lobelia. The flowers and wreath were provided by a Black Hills District grant. Members of the Club have taken turns watering the containers and fertilizing them and they continue to thrive, despite some HOT summer days. We would like to thank the Black Hills District for supporting this project.

2.The Cowlitz County Fair from July 22 to 25 provided an opportunity for the Kelso Garden Club to participate in the Floral Show and to showcase plants in 2 Booths. The first was the Theme Booth - American Made // County Raised. We received a Blue ribbon for this display.

The second was the Education Booth that showcased Native Plants with an Educational Handout and a Kelso Garden Club brochure to promote the club.

Members also participated in the Floral Show in several categories.
